Rep. Meyers Receives Wisconsin Idea Award from UW Extension

MADISON – The Joint Council of Extension Professionals award luncheon was held on Wednesday, April 20 in the Wisconsin Dells. As part of the ceremony, Representative Beth Meyers (D – Bayfield) received the Wisconsin Idea Award. This award recognizes Meyers’ significant contributions to Northern Wisconsin’s residents.

Meyers has been a supporter of Extension since 2009 when she participated in the UWEX inaugural cohort of the Ashland and Bayfield County’s leadership program. She served five years on the Bayfield County Board and was a member of the Agriculture & Extension Education Committee for several of those years.

“As a strong supporter of our state’s university system, I am thrilled to receive this award. The UW Extension helps to ensure that continuing education is available to those living in rural communities like the 74th Assembly District. I commend them on their efforts and look forward to our continued working relationship.” said Rep. Meyers.
